

Social Safeties

Suit up in the morning
walk not out the door
without a johnny rolled secure

Words are our thoughts
unsecured yet some words
are not allowed to soar

Words have orgasmic nature
hard-wired waves of
orgastic tension pressure
built waves do not subside
until pleasurable release

We have all been fitted
with social condoms
body sheaths to catch words
before they infect set fire
become roaring flame
fanned by witless wind

What is politic
shrewd ad hoc speech
What is correct
to set make true
or false and imprecise

Are we held to not say
what we clearly see
Is it why we must pull on
an opaque condom
to quell handpicked words
