

What color is blue

What color is blue
what color are you

Bachelor buttons grow
to seed sew
transforming sunlight
to continue in life
blue by its flowers
is reflected away

Man is implanted with ideals
fabrications ages ingrained
outbursts of social conversion
choosing colors to reflect
colors to cast aside

This man this woman
for president or priest
are they most or least

Man the Namer
Naming it
Naming it
evades a need to know

What color is blue
in the nebulous night
What color are you
